

Quality of Life: Healthcare

[Houston Healthcare](http://www.hhc.org/) (<http://www.hhc.org/>) is a total health care system located in Middle Georgia including Houston Medical Center, Perry Hospital, The Houston Heart Institute, and Houston Health Pavilion. State-of-the-art facilities offer the latest in medical technology paired with caring doctors and staff who are part of the community. Central to the success of the Houston Healthcare's commitment to providing high quality healthcare is the presence of a truly outstanding staff of physicians. All major specialties are represented on the hospitals' medical staffs, and together with the comprehensive services available through Houston Medical Center, Perry Hospital and our other facilities, excellent care and treatment are available to everyone in Houston County.
